

Republic of the Philippines
CIVIL AVIATION AUTHORITY
OF THE PHILIPPINES

MEMORANDUM CIRCULAR NO. 016-2023

TO : ALL AIRCRAFT OWNERS/OPERATORS
FROM : THE DIRECTOR GENERAL
SUBJECT : ACCOMPLISHED PCAR PART 7 COMPLIANCE CHECKLIST
REQUIREMENT FOR ALL PHILIPPINE REGISTERED
AIRCRAFT
DATE : AUGUST 18, 2023

To ensure the safety and airworthiness of all aircraft operating in the Philippines, the Civil Aviation Authority of the Philippines (CAAP) is implementing a new requirement for all Philippine registered aircraft. Effective immediately, all such aircraft must maintain an accomplished PCAR Part 7 compliance checklist in their aircraft records.

PCAR Part 7 is a regulation that governs the required instruments and equipment for all aircraft operating in the Philippines. The compliance checklist will ensure that all the necessary instruments and equipment are properly installed and maintained in accordance with the PCAR Part 7 regulations.

The CAAP will review the compliance checklist during airworthiness certificate application for initial or renewal certificates and surveillance. The checklist will be used to verify that all instruments and equipment required by the PCAR Part 7 regulation are installed and maintained in the aircraft.

All aircraft operators are responsible for maintaining this checklist in their aircraft records and ensuring that all required instruments and equipment are installed and maintained in a timely manner. Failure to comply with this requirement may result in the denial of an airworthiness certificate or other enforcement action.

To obtain the latest revision of the PCAR Part 7 Regulations Compliance Checklist (RCC), you may access and download them from the CAAP website at www.caap.gov.ph.

Strict compliance is hereby enjoined.

CAPTAIN MANUEL ANTONIO L. TAMAYO
