Preface

These Philippine Bidding Documents (PBDs) for the procurement of Goods through Competitive Bidding have been prepared by the Government of the Philippines for use by any

branch, constitutional commission or office, agency, department, bureau, office, or instrumentality of the Government of the Philippines, National Government Agencies, including Government-Owned and/or Controlled Corporations, Government Financing Institutions, State Universities and Colleges, and Local Government Unit. The procedures and practices presented in this document have been developed through broad experience and are for mandatory use in projects that are financed in whole or in part by the Government of the Philippines or any foreign government/foreign or international financing institution in accordance with the provisions of the 2016 revised Implementing Rules and Regulations of Republic Act No. 9184.

The Bidding Documents shall clearly and adequately define, among others: (i) the objectives, scope, and expected outputs and/or results of the proposed contract or Framework Agreement, as the case may be; (ii) the eligibility requirements of Bidders; (iii) the expected contract or Framework Agreement duration, the estimated quantity in the case of procurement of goods, delivery schedule and/or time frame; and (iv) the obligations, duties, and/or functions of the winning bidder.

Care should be taken to check the relevance of the provisions of the PBDs against the requirements of the specific Goods to be procured. If duplication of a subject is inevitable in other sections of the document prepared by the Procuring Entity, care must be exercised to avoid contradictions between clauses dealing with the same matter.

Moreover, each section is prepared with notes intended only as information for the Procuring Entity or the person drafting the Bidding Documents. They shall not be included in the final documents. The following general directions should be observed when using the documents:

- a. All the documents listed in the Table of Contents are normally required for the procurement of Goods. However, they should be adapted as necessary to the circumstances of the particular Procurement Project.
- b. Specific details, such as the “*name of the Procuring Entity*” and “*address for bid submission*,” should be furnished in the Instructions to Bidders, Bid Data Sheet, and Special Conditions of Contract. The final documents should contain neither blank spaces nor options.
- c. This Preface and the footnotes or notes in italics included in the Invitation to Bid, Bid Data Sheet, General Conditions of Contract, Special Conditions of Contract, Schedule of Requirements, and Specifications are not part of the text of the final document, although they contain instructions that the Procuring Entity should strictly follow.
- d. The cover should be modified as required to identify the Bidding Documents as to the Procurement Project, Project Identification Number, and Procuring Entity, in addition to the date of issue.
- e. Modifications for specific Procurement Project details should be provided in the Special Conditions of Contract as amendments to the Conditions of Contract. For easy completion, whenever reference has to be made to specific clauses in the Bid Data Sheet or Special Conditions of Contract, these terms shall be printed in bold typeface on Sections I (Instructions to Bidders) and III (General Conditions of Contract), respectively.

- f. For guidelines on the use of Bidding Forms and the procurement of Foreign-Assisted Projects, these will be covered by a separate issuance of the Government Procurement Policy Board.

Section VII. Technical Specifications

TECHNICAL SPECIFICATIONS (Terms of Reference)

for the

PROPERTY APPRAISAL SERVICE FOR THE
2024 VALUATION OF CAAP PROPERTIES AND ASSETS
NATIONWIDE

1. PROJECT DESCRIPTION

The Civil Aviation Authority of the Philippines (CAAP) was enacted through Republic Act No. 9497, whereby the Air Transportation Office (ATO) was abolished with all its real properties and offices transferred due to the intensive civil aviation reform program launched by the government. The CAAP is an independent regulatory body with quasi-judicial and quasi-

legislative powers and possesses corporate attributes attached to the Department of Transportation (DOTr), for policy coordination.

Through the years, CAAP has administered prominent airports which have had a huge economic and social impact on its local and regional communities. Consequently, the Authority has its role to ensure and maintain the proper utilization of its real estate and facilities nationwide through an inventory of CAAP assets; however, limited to its current appraisal value that are currently outdated.

It is for this reason that CAAP opines to engage in a property appraiser service to undertake these essential property-related requirements, having an approved budget of **Sixteen Million One Hundred Twenty-Eight Thousand Two Hundred Sixty-Six Pesos and Seventy Centavos (PHP 16,128,266.70)**, inclusive of VAT, all logistics, lodging, other expenses and all applicable taxes and fees.

2. OBJECTIVE

Due to the present uncertain valuation of CAAP properties and assets used to perform regulatory, airport operations, and air navigation services nationwide, there is a need to engage the services of an Independent Property Appraiser (IPA) under the pertinent provisions of Section 53.6 of the revised Implementing Rules and Regulations of RA 9184, otherwise known as the “Government Procurement Reform Act” and its implementing rules and regulations for the consulting services for “scientific, academic, scholarly work or research”.

The CAAP shall provide the IPA with its available pertinent documents and technical information necessary, if any, for the execution and performance of the services.

The result of the project will give CAAP an updated appraisal valuation of the properties that will be used in determining the current market value in the disposition and/or, development of the properties, potential Private-Public Partnerships (PPP), and insurance coverage for Government Service Insurance System (GSIS) under Republic Act No. 8291 or the Government Service Insurance System Act of 1977.

3.1 EVALUATION APPROACH

Cost Comparative Approach: Shall consider the possibility that, as an alternative to the purchase of a given property, one could acquire a modern equivalent asset that would provide equal utility. In a real estate context, it would involve the cost of acquiring equivalent land and constructing an equivalent new structure. Often the subject property will be less attractive than the cost of the modern equivalent because of age and obsolescence. Therefore, deductions are made to reflect physical deterioration and all relevant forms of obsolescence and optimization. This approach would normally be used in assessing the value of specialized assets not usually sold in the open market or where direct market evidence is limited or unavailable.

For improvements, including plant, machinery, and equipment, the extent of maintenance, its condition and habitability or utility, and its remaining useful life should first be considered

before a value is given. Any improvement, including plant, machinery, and equipment that can no longer serve its purpose or utility should be valued at “Salvage Value”.

Determination of Market Value shall likewise take into account the defects of the property such as the presence of Informal Settlers, and/or existence of easements inside the property, and etc. If the property has defects, the IPA shall provide two market values of the property: without and with defects, or statement of no finding, if not present/applicable.

4. GENERAL REQUIREMENTS

The IPA must satisfy the following requirements:

- a. Shall be registered online with the Philippine Government Electronic Procurement System (<https://www.philgeps.gov.ph>);
- b. Shall be on the list of the Bangko Sentral ng Pilipinas (BSP) or a professional association of appraisers recognized by the BSP;
- c. Shall be licensed by the Professional Regulation Commission (PRC), as an appraiser or holds an equivalent license. and registered with the Professional Regulatory Board of Real Estate Services (PRBRES) under RA 9646 (Real Estate Service Act of the Philippines, 2009);
- d. Shall have conducted an appraisal service for a government agency whose project scope is nationwide or simultaneously within at least five (5) different regions, and shall comply with all eligibility requirements provided in RA 9184 and its IRR;

 - Assign at least four (4) other licensed Real Estate Appraisers who have at least three (3) years of relevant experience, to act as support to the Team Leader.

The IPA must submit a notarized Undertaking specifying the names of the licensed appraisers, the license number, and the validity of the license. A copy of such Licenses must be attached to the notarized Undertaking.
