GENERAL SPECIFICATIONS

I. INTRODUCTION

The works to be accomplished by the successful bidder shall consist of furnishing, supervision of labor, material, tools and equipment to complete the Scope of Works for the project: Preventive Maintenance of Building and Other Structure at Rosales Airport. The details of work are best enumerated below; however, it is understood that the contract includes all works and services though not specifically mentioned herein, but are needed to fully complete the project shall be undertaken by the contractor.

All scope of works must be in accordance with the plans and programs. The Quality and types of materials must conform to the specifications and must be approved first by the Engineer-In-Charge/End-user of CAAP-LIA.

II. STATEMENT OF WORK

A. Scope of Work

- i. The Scope of Work includes the furnishing of all necessary labour, equipment, tools, materials, supplies, supervision and expertise necessary to perform the following.
 1. Project Billboard – The Work includes the installation of 8x8 tarpaulin. In compliance with COA.
 2. Site Works – The work includes all materials, labour, equipment and performance for Site Works. The contractor/service provider shall undertake the Sealing of all possible leakage on roofing using Vulca Seal. This scope also let the contractor on removal of existing ceiling at PTB having an area of 164 sq.mtrs only(see attached plan) and clearing and proper disposal of waste to be guided by the OIC of the site. In addition, the contractor shall repair the existing water distribution line approximately 10 ln.mtr.
 3. Ceiling Works - The work includes all materials, labor, equipment and performance for Ceiling works. The contractor/service provider shall undertake installation of Fiber Cement Board on the existing wooden ceiling joist approximately 164 sq.mtrs. Refer to the attached plan.
 4. Painting Works - The work includes all materials, labor, equipment and performance for Painting works. The contractor/service provider shall undertake the painting of the new installed Ceiling panels (164 sq.mtrs)
 5. Other General Requirement - Occupational Health and Safety Program.

B. Work Schedule

The Contractor shall perform the works with rules and policies of the airport.

The Contractor shall provide the necessary manpower, tools, equipment, materials and supplies to insure timely accomplishment and delivery. Depending on the seasonal demand in cutting the bushes and grasses, the contractor can flexibly up-size or down size its manpower, equipment, materials, etc. with the ultimate objective of delivering satisfactory on time result and performance.

1. Working Time

- Work is done regularly at daytime. The working time is eight (8) hours a day, six days a week including holiday.

2. Work Method

- Work methodology will be formulated by the contractor and CAAP-LIA authorities prior to implementation of the contract.
- Cut Bushes and grasses should be controlled or deposited to a designated area as indicated by the Agency.

C. Man Power Schedule

The Minimum manpower required during contract implementation shall be:

Skilled Worker	--
Laborer	--
	--
	--
	--

The contractor shall provide the necessary manpower to properly accomplish all necessary related works. The contractor shall designate a competent representative who shall be available at the area to oversee working operation being carried out and to receive instructions from the Airport officials. The contractor's authorized representative shall be responsible for the overall management and coordination of work to be performed as contract provisions and shall act as central point with the government agency. The contractor's authorized representative shall have full

authority to act thereat in behalf of the contractor's name while in the premises.

i. Identification

1. The Contractor's personnel shall be recognizable while in airport premises. This will be accomplished by the used of uniforms and printed with the company's name of the contractor. All expenses for uniforms and badges shall be borne by the contractor. All contractor's personnel shall always be in uniform.

D. Equipment, Tools and Consumables required to be used for the project

1. The Contractor shall provide the required number of equipment, tools and consumables to accomplish all necessary works provided in the contract. The contractor's equipment provided therein shall be used exclusively for the contracted services.

The use of other kind of equipment other than that stated thereof will not be permitted, unless otherwise approved by the authority. Any delay caused, by stoppage of work being authorized by the office concerned will not be taken against the contractor.

E. Service Vehicle

The Contractor shall make available, during the performance of the contract, at least one (1) service vehicle with good condition, for use by the airport authority's representative/engineers for the purpose of inspection, monitoring, measuring, laboratory testing and other activities relative to the implementation of the project.

F. Handheld radios

If the project location is within the Restricted Area of the Airport, the contractor is required to have at least one (1) Hand Held Radio for the Proper Coordination with Control Tower or any personnel involved in the flight operation under CAAP.

G. Period of Implementation

The contract shall be implemented for a total of Ninety (90) Calendar Days. Provided that the contractor will only proceed upon written notice from the duly authorized representative of the Authority to commence with the project, which notice must not be less than seven (7) days from the start date.

H. Guidelines

The contractor shall always establish a complete quality control program to adhere with the following requirements while carrying out his function and responsibilities during the implementation of the contract.

i. Quality Assurance and Corresponding Penalties

The Contractor shall establish a system of quality control program to assure that the requirements of the contract are provided as specified. One copy of the contractor's quality control program shall be submitted to the Authority prior to start of the contracted services. An updated copy must be provided as changes occur. The program shall include but not limited to the following.

- An inspection system, covering all the services to be performed under the contract. This must specify areas to be inspected on either a scheduled or unscheduled basis or such personnel who will perform the inspection.
- A method for identifying deficiencies in the quality of services rendered, before the level of performance becomes unacceptable.
- Contractor shall provide the following uniform to all its employees:
 - A shirt with a contractor's logo/name with pants of any color or any equivalent uniform acceptable to CAAP-LIA
 - A penalty amounting to Fifty Pesos (P 50.00) per day per person shall be imposed on personnel who are not in prescribed uniform while on duty.

ii. Safety and Security Measures

The Contractor shall adhere to all standards and recommended practices stipulated by the airport authority and shall, under no circumstances, violate standard rules and regulations.

- The Contractor and his employees shall always comply with the security and safety requirements imposed by the management while in the airport premises.
- The Contractor is hereby instructed that aircraft operations and movements and the safety thereof, shall always take precedence over any operation.

In case of within the restricted area, a presence of authorized handheld radio operator is assigned and shall obtain clearance from the Control Tower from time to time for thorough safety.

Republic of the Philippines
CIVIL AVIATION AUTHORITY OF THE PHILIPPINES

- The Contractor shall, always keep paved surfaces such as runways, taxiways and hard stands free from hazardous materials.
